

Regulation 3514: Environmental Safety

Status: ADOPTED

Original Adopted Date: 05/09/2006 | **Last Reviewed Date:** 05/09/2006

Asbestos Testing and Abatement

Maintenance staff shall be trained in the location, identification, proper cleaning and ongoing maintenance of asbestos-containing materials and in the removal and decontamination of small amounts of such materials when needed to repair pipes or perform similar duties. Extensive asbestos abatement work shall be completed by state-certified asbestos abatement contractors in compliance with state and federal standards.

The district's complete, updated management plan for material containing asbestos in school buildings shall be available for inspection in district and school offices during normal business hours. Parent, teacher and employee organizations shall annually be informed of the availability of this plan. (40 CFR 763.93)

Other Environmental Safety Precautions

Principals or their designees shall enforce school rules designed to:

1. Prevent the accumulation of flammable, noxious or otherwise dangerous materials unless adequate safeguards are provided
 2. Keep all school facilities free of debris
 3. Keep walkways at all times open to pedestrian traffic and clear of obstructions
