

Regulation 3511.1: Integrated Waste Management

Status: ADOPTED

Original Adopted Date: 09/10/2014 | **Last Revised Date:** 01/03/2022 | **Last Reviewed Date:** 01/03/2022

For all applicable areas of district operations, the Superintendent or designee shall design an integrated waste management program that minimizes the generation of waste, encourages the recovery and diversion of reusable materials from the waste stream, improves efficiency in the utilization of natural and material resources, and protects the environment. The program shall implement measures and/or practices to:

1. Reduce the consumption of disposable materials, increase the composting of organic materials, and fully utilize all materials prior to disposal
2. Recycle materials such as paper, glass, plastic, and aluminum
3. Prefer recycled, biodegradable, and other environmentally preferable products when procuring materials for use in district schools and buildings or contracting for the construction or modernization of any district building
4. Work with city, county, or other government agencies to locate markets for the district's reusable and recyclable materials
5. Minimize the use of nonbiodegradable materials and work with vendors and contractors to use packaging and delivery materials that generate less waste

Recycling

Any school site or district facility which generates four or more cubic yards of solid waste per week shall take at least one of the following actions: (Public Resources Code 42649.1, 42649.2)

1. Source separate recyclable materials from solid waste and subscribe to a basic level of recycling service that includes collection, self-hauling, or other arrangements for the pickup of the recyclable materials
 2. Subscribe to a recycling service which may include mixed waste processing that yields diversion results comparable to source separation
