

Policy 3511: Energy And Water Management

Status: ADOPTED

Original Adopted Date: 02/08/2005 | **Last Revised Date:** 04/13/2010

The Board of Trustees is committed to reducing the District's demand for electricity and water in order to help conserve natural resources and to save money to support other identified priorities.

The superintendent or designee shall establish and maintain an Energy Conservation Plan which shall include strategies designed to provide for the more efficient use of electrical, gas, and water resources.

The superintendent or designee shall regularly inspect District facilities and operations and make recommendations for maintenance and capital expenditures which may help the District reach its conservation and management goals.

(cf. 7110 - Facilities Master Plan)

(cf. 7111 - Evaluating Existing Buildings)

The superintendent or designee shall make every effort to identify funding opportunities and cost-reducing incentive programs to help the District achieve its conservation goals.

The superintendent or designee shall periodically report to the Board on the District's progress in meeting energy and water use reduction goals.
