

Regulation 7111: Evaluating Existing Buildings

Status: ADOPTED

Original Adopted Date: 02/01/1999 | **Last Revised Date:** 04/20/2022 | **Last Reviewed Date:** 04/20/2022

Structural Safety

In the event that the Department of General Services or any licensed structural engineer or licensed architect finds and reports to the Board of Trustees that a district building is unsafe for use, the Superintendent or designee shall immediately obtain an estimate of the cost of repairs or reconstruction necessary to bring the building up to legal standards for structural safety. The Board shall establish a system of priorities for the repair, reconstruction, or replacement of unsafe school buildings. (Education Code 17367)

A relocatable school building or structure shall meet the requirements of Education Code 17280-17317 and 17365-17374 pertaining to structural safety. (Education Code 17291)

Energy Efficiency

To the extent that services are available, the Superintendent or designee shall arrange for the energy audit of school buildings to identify the type and amount of work necessary to retrofit buildings and obtain an estimate of projected energy savings. The district may contract with qualified businesses capable of retrofitting these buildings and may borrow funds which do not exceed the amount of energy savings to be accumulated from the improvement of the buildings. (Education Code 17651-17653)
