

Policy 3511: Energy And Water Management

Status: ADOPTED

Original Adopted Date: 02/26/2003 | **Last Revised Date:** 03/17/2021 | **Last Reviewed Date:** 03/17/2021

The Governing Board recognizes the importance of conserving energy and natural resources while exercising sound financial management.

The implementation of this policy is the joint responsibility of administrators, teachers, students, and support personnel, and its success is based on cooperation at all levels. The role of the Energy Manager is to monitor the implementation of this policy.

The district will maintain accurate records of energy consumption and cost and will provide information to the community on the goals and progress of the energy conservation program.

The principal will be accountable for energy management on his/her campus. Judicious use of the various energy systems on each campus will be the joint responsibility of the principal and head custodian to ensure that efficient energy use is maintained on a daily basis.
