

**Policy 3511: Energy And Water Management**

**Status:** ADOPTED

**Original Adopted Date:** 11/02/2021 | **Last Reviewed Date:** 11/02/2021

The Governing Board may establish goals for reducing energy and water use in the district in order to help conserve our society's natural resources and save money to support other district needs.

The Superintendent or designee may establish a plan to meet energy and water use reduction goals, monitor energy consumption and encourage employees and students to conserve resources. The Superintendent or designee may regularly inspect district facilities and operations and make recommendations for maintenance and capital expenditures which may help the district reach its energy and water consumption goals.

The Superintendent or designee may seek available grants to initiate or sustain conservation efforts.

The Superintendent or designee may periodically report to the Board on the district's progress in meeting energy and water use reduction goals.
