

Policy 3511: Energy And Water Management

Status: ADOPTED

Original Adopted Date: 09/22/2010

The Governing Board recognizes the importance of minimizing the District's use of natural resources, providing a high-quality environment that promotes health and productivity, and effectively managing the District's fiscal resources. To that end, the Superintendent or designee shall develop a resource management program which includes strategies for implementing effective and sustainable resource practices, exploring renewable and clean energy technologies, reducing energy and water consumption, minimizing utility costs, reducing the amount of waste of consumable materials, encouraging recycling and green procurement practices, and promoting conservation principles.

(cf. 3100 - Budget)

(cf. 3300 - Expenditures and Purchases)

(cf. 3511.1 - Integrated Waste Management)

(cf. 3512 - Equipment)

(cf. 6142.5 - Environmental Education)

The Superintendent or designee shall regularly inspect District facilities and operations and make recommendations for maintenance and capital expenditures which may help the District reach its conservation and management goals. Such inspections shall include input from site and District staff.

(cf. 7110 - Facilities Master Plan)

(cf. 7111 - Evaluating Existing Buildings)

The Superintendent or designee shall make every effort to identify funding opportunities and cost-reducing incentive programs to help the District achieve its conservation and management goals.
