

**Business and Non-Instructional Operations**  
**Management of District Assets/Accounts - Periodic Financial Reports**

**ENERGY AND WATER CONSERVATION/WASTE MANAGEMENT**

The Governing Board shall establish goals for reducing energy and water use in the district in order to help conserve our society's natural resources and save money to support other district needs.

The Superintendent and principals shall encourage employees and students to conserve resources and emphasize recycling efforts. Resource conservation should be an integral part of the physical operation of the district and school curriculum. The Superintendent/principal shall regularly inspect district facilities and operations and make recommendations for maintenance and capital expenditures which may help the district reduce its energy and water consumption.

The Superintendent will encourage personnel to seek available grants to initiate or sustain conservation efforts.

The Superintendent shall periodically report to the Board on the district's progress in meeting energy and water use reduction.
