

Policy 3511: Energy And Water Management

Status: ADOPTED

Original Adopted Date: 06/09/1992 | **Last Reviewed Date:** 06/09/1992

The Governing Board encourages its employees and students as a way of life to reduce waste in all their schools and facilities.

The Superintendent or designee shall conserve in all areas of energy consumption whenever possible without any reduction of or hindrance to the basic educational program of the district.

The Superintendent or designee will be responsible for the development and the continuance of educational programs by enlisting the cooperation and the involvement of each employee and student in meeting the energy problems faced now and in the future.

Policy SAN JUAN UNIFIED SCHOOL DISTRICT

adopted: June 9, 1992 Carmichael, California
