

Regulation 7111: Evaluating Existing Buildings

Status: ADOPTED

Original Adopted Date: 05/19/2015

The Superintendent or designee shall periodically evaluate the adequacy, design, and conditions of existing district facilities to determine whether they meet the needs of the instructional program and provide a healthful and pleasing environment for students and staff. He/she also shall determine whether district facilities fulfill legal requirements for safety and structural soundness, access for the disabled, and energy conservation.

(cf. 0410 - Nondiscrimination in District Programs and Activities)

(cf. 3511 - Energy and Water Management)

(cf. 3514 - Environmental Safety)

(cf. 3515 - Campus Security)

(cf. 3516 - Emergencies and Disaster Preparedness Plan)

(cf. 3517 - Facilities Inspection)

Any identified needs for repair, modernization, or construction shall be incorporated into the district's facilities planning process.

(cf. 7110 - Facilities Master Plan)

Structural Safety

In the event that the Department of General Services or any licensed structural engineer or licensed architect finds and reports to the Board of Education that a district building is unsafe for use, the Superintendent or designee shall immediately obtain an estimate of the cost of repairs or reconstruction necessary to bring the building up to legal standards for structural safety. The Board shall establish a system of priorities for the repair, reconstruction, or replacement of unsafe school buildings. (Education Code 17367)

A relocatable school building or structure shall meet the requirements of Education Code 17280-17317 and 17365-17374 pertaining to structural safety. However, a relocatable building that does not meet the requirements of Education Code 17280 may be used as a school building until September 30, 2015, if all the conditions specified in Education Code 17292 are met and the Board so certifies to the Department of General Services. (Education Code 17291, 17292)
